Holbrook Court, E1 Cumberland Business Centre,
Northumberland Road, Southsea, PO5 1DS,
United Kingdom

Contact: +44 (0) 23 92623900

Description: the product is a battery pack for a marine Portable Survival Craft Two-way VHF Radiotelephone Apparatus. It contains six small rechargeable Nickel Metal Hydride cells, and is by design a short-circuit protected, sealed waterproof unit that poses no definable health hazard.

Use Information

The product contains no user-serviceable parts.

The product should only be recharged using an appropriate McMurdo Ltd charger.

DO NOT ATTEMPT TO DISMANTLE.

Hazardous Substances

Under EC and US legislation this product is classified as a manufactured article, which does not result in exposure to any hazardous chemicals under normal conditions of use. As such the product does not require a Material Safety Data Sheet, and the following information is provided as a courtesy:

The cells within the product contain the following active ingredients, by CAS number and name:

7440-02-0	Nickel
12054-48-7	Nickel Hydroxide
21041-93-0	Cobalt Hydroxide
1310-58-3	Potassium Hydroxide
63428-83-1	Polyamide

No chemical hazard will be posed as long as the cells remain in their sealed condition.

This information is given in good faith, and is believed to be accurate at the date of preparation. McMurdo Ltd makes no warranty, either express or implied, with respect to this information, and disclaims all liability from reference on it.

Transport Information

The product is unregulated for the purposes of transportation.
For transport by air, IATA special provision A199 applies.

Disposal Information

DO NOT INCINERATE.

DO NOT ATTEMPT TO DISMANTLE.

DO NOT DISCARD IN DOMESTIC WASTE.

This product should be disposed of in a sensible and considerate manner, and in accordance with local regulations. Take it to a civil recycling facility, or contact McMurdo Ltd for advice.

Green Passport: Ship Recycling Information

McMurdo Ltd hereby declares potentially hazardous content in some of its electronic products.

Small amounts of the following substances may be present: beryllium oxide, lithium, lead (in older products), brominated flame retardants, glass.

In keeping with European directive 2002/96/EC (Waste Electronic and Electrical Equipment) and the provisions of IMO Resolution A.962(23) (Guidelines On Ship Recycling), McMurdo Ltd strongly recommends that its products, including any battery packs, be disposed of in a considerate and legal manner. Additional information, concerning the disposal of equipment can also be found in the relevant equipment User Manual, under the heading: End of Life Statement.
