

DECLARATION OF COMPLIANCE

EU Regulation for Registration, Evaluation, Authorisation and Restriction of Chemicals REACH (EC 1907/2006)

Netwave Systems B.V. is part of the Seas of Solutions group, providing maritime safety and voyage data technologies under the Netwave, McMurdo, and Kannad Marine brands. As a manufacturer of marine electronic equipment, Netwave Systems B.V. acts as a downstream user under the REACH Regulation.

As we do not manufacture or import chemical substances into the European Union, the registration obligations of REACH do not apply directly to Netwave Systems B.V.

Netwave Systems B.V. does not manufacture or solder printed circuit boards (PCBs) or produce mechanical housings in-house. These activities are performed by specialised and certified EMS and manufacturing partners, while Netwave Systems B.V. conducts final assembly and integration. We therefore rely on our supply chain to ensure that all components and assemblies meet the applicable REACH and RoHS requirements.

To ensure compliance, suppliers have been informed of their REACH obligations and are required to:

- Report any **Substances of Very High Concern (SVHCs)** in accordance with Article 33; and
- Fulfil all responsibilities applicable to them, including substance registration duties and fees.

Through this supplier oversight, Netwave Systems B.V. ensures that all products placed on the EU market comply with the REACH Regulation.

EU Directive on the Restriction of Hazardous Substances in Electrical and Electronic Equipment RoHS (Directive 2011/65/EU, as amended)

The RoHS Directive restricts the use of hazardous substances in electrical and electronic equipment and specifies the following maximum concentration limits:

Substance	RoHS Limit
Cadmium (Cd)	< 0.01%
Lead (Pb)	< 0.10%
Mercury (Hg)	< 0.10%
Hexavalent Chromium (Cr VI)	< 0.10%
Polybrominated Biphenyls (PBB)	< 0.10%
Polybrominated Diphenyl Ethers (PBDE)	< 0.10%
Bis(2-Ethylhexyl) Phthalate (DEHP)	< 0.10%
Benzyl Butyl Phthalate (BBP)	< 0.10%
Dibutyl Phthalate (DBP)	< 0.10%
Diisobutyl Phthalate (DIBP)	< 0.10%

Netwave Systems B.V. declares that all products manufactured under the Netwave, McMurdo, and Kannad Marine brands comply with the RoHS Directive.

To ensure continued conformity, we monitor our supply chain, and all suppliers are required to provide material declarations and ensure that no restricted substances exceed the permitted limits.

For and on behalf of Netwave Systems B.V.: Lorenzo Bakker
